STYLE GUIDE

| About Us |

Creating your personal or business space is a fun and easy process. Using our experience we guide you through the various products, styles and services to ensure that both the design concept and functionality are achieved. Our ideas are tailored to reflect your style in fabric, color choices, treatments, and bedding options. This style guide is a sample of the many unique treatments we can create for you. Once we have a better understanding of your taste, we can computer-illustrate a detailed sketch of the design ideas being discussed. This process helps you visualize the treatment before fabrication begins. From the initial meeting to the finished product, you will be delighted with each stage of the design process.

We look forward to providing you with an experience that is simply unforgettable!

Enjoy!
